Receipt is acknowledged of Declaration, of 3/11/02.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, 12-14, 16, are drawn to a gel, classified in class 523, subclass 134.
- II. Claim 9, is drawn to a perfume, classified in class 512, subclass 5.
- III. Claims 10, 11, 15, are drawn to an insect agent, classified in class 424, subclass 405.
- IV. Claims 17-34, are drawn to method of making, classified in class 524, subclass 801.

The inventions are distinct, each from the other because:

Inventions I , II , III and IV are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP§806.05(f)). In the instant case the process as claimed can be used to make other materially different products, such as paints.

The products of group I , II , III are independent and patentably distinct, as they do not depend one upon the other.

Additional election of species may be required if groups I , II , IV are elected.

The groups I -IV have acquired a separate status in the art as shown by their different classification, have acquired a separate status in the art because of their recognized divergent subject matter, the search for any 1 group is not required for any

other Group, and a search and examination of the entire application would place an undue burden on the Examiner, the present restriction requirement is proper for examination purposes.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Because the above restriction/election requirement is complex, a telephone call to applicant's agent to request an oral election was not made. See M.P.E.P. Sec. 812.01.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Neil Levy whose telephone number is 308-2412. The examiner can normally be reached on Tuesday- Friday 7:00 am to 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jose Dees can be reached on 308-4628.
